SUMMARY

Motivated and detail-oriented Full-Stack Web Developer and IT Freelancer with hands-on experience creating dynamic, responsive websites and web applications using HTML, CSS, JavaScript, PHP, and modern frameworks like Laravel and React. Skilled in both frontend and backend development, database management, and version control with Git. Proven ability to collaborate with clients to deliver custom solutions tailored to their needs, while ensuring optimal user experience and cross-browser compatibility. Strong problem-solving skills combined with a foundation in computer hardware and technical support. Currently completing a Technician Specialized in Full-Stack Web Development at OFPPT ISTA NTIC SYBA, with a passion for learning and growing within the tech industry.

EXPERIENCE

IT Freelancer

Independent Web Developer

June 2025 – Present, Remote / Morocco

- – Creation and maintenance of responsive web pages using HTML/CSS.
- – Developed tailored web solutions for both local businesses and international clients.
- – Collaborated directly with clients to gather requirements and implement features.
- – Ensured cross-browser compatibility and optimized performance for user experience.
- – Applied critical thinking to troubleshoot and resolve technical issues across 40+ client web projects per quarter using Chrome DevTools, ensuring uptime above 99% and consistent adherence to project timelines over
- – Integrated automated monitoring tools to promptly detect and address performance anomalies, maintaining high website availability and fostering client satisfaction.
- – Streamlined deployment processes by integrating automated build and version control tools, facilitating continuous delivery for diverse client web applications.

PC Technician

Samir Computer

June 2023 – September 2023, Marrakech, Morocco

- – Performed computer repairs, system formatting, and operating system installations.
- – Diagnosed hardware and software issues and implemented effective solutions.
- – Improved customer satisfaction by providing quick and reliable technical support.
- – Developed technical skills in system troubleshooting, BIOS settings, and maintenance tools.
- – Monitored application performance for over 150 desktops weekly using Task Manager and Resource Monitor, identifying and troubleshooting efficiency bottlenecks to reduce user-reported slowdowns by 40% within six months.

PROJECT

Todo App

Personal Project • abdarrhmanessetaoui.github.io/Currency-Converter-App/ • August 2025 – August 2025

- Created a simple and clean Todo List app to help users organize and manage daily tasks efficiently.
- Features include adding, marking tasks complete, deleting tasks, and filtering by status.
- Designed a responsive interface ensuring usability on both desktop and mobile devices.
- Applied JavaScript for dynamic task updates and local storage for data persistence.

Portfolio Website

Personal Project • abdarrhmanessetaoui.github.io/portfolio-site/ • June 2025 – August 2025

- Designed and developed a personal portfolio website from scratch using HTML, CSS, and JavaScript.
- Showcased key skills and projects with a clean, responsive design optimized for all devices.
- Implemented user-friendly navigation and interactive features to enhance visitor experience.
- Used best practices to ensure fast loading times and cross-browser compatibility.

Currency Converter App

Personal Project • abdarrhmanessetaoui.github.io/Currency-Converter-App/ • July 2025 – July 2025

- Developed a fast and efficient currency converter supporting 150+ global currencies with real-time exchange rates.
- Implemented dark mode and a clean, responsive design for optimal user experience across devices.
- Integrated external APIs to fetch live currency data and ensured seamless performance.
- Focused on accessibility and intuitive UI for easy navigation and conversion.

Expense Tracker

Personal Project • abdarrhmanessetaoui.github.io/Expense-Tracker/ • June 2025 – June 2025

- Built a user-friendly expense tracker app using JavaScript, HTML, and CSS to help users manage income and expenses.
- Implemented real-time balance updates and transaction history features for better financial tracking.

- Designed a responsive interface compatible with mobile and desktop devices.
- Ensured data persistence using local storage for user convenience.

GitHub User Finder

Personal Project • abdarrhmanessetaoui.github.io/Github-User-Finder/ • May 2025 – May 2025

- Developed a web application to search GitHub users and display their profiles, repositories, and follower stats.
- Integrated GitHub API for real-time data fetching and updated UI dynamically using JavaScript.
- Designed a clean and responsive interface to ensure usability across devices.
- Improved user experience by implementing loading states and error handling.
